Professional experience

- ▶ **Alan** **Since May 2016:** Head of UX/UI design team.
- ▶ **Withings** **2012 - 2016:** Head of UX/UI design team.
 - HealthMate** Selected in the «Apps of the year» 2014 by Apple, the app constantly rates above **4 stars on the App Store**.
 - Withings Home** Complete design of the companion app for the Withings Home.
 - Embedded UI** Complete UI of the **Withings Pulse** and the **Smart Body Analyzer**, both product winners of different Design Awards (Observateur du Design, CES awards...).
- ▶ **Orange Vallée** **2008 - 2012:** Interaction, UX, UI Designer on innovative products and services, from the project's early stages to the production.
I worked on a large set of projects; among them:
 - lifeisbetterOn** **2011 - 2012:** Lead UX designer (Full redesign of the application, pivoting from Voicemail customization to messaging & VOIP call app, applying lean methodologies and improving through constant user testing).
The app now constantly rates above **4 stars on the App Store**, raising the user numbers from thousands to the million.
 - Memory-life** **2009 - 2012:** Lead interaction designer (Redesign of the Flex webapp, responsive HTML5 sharing interface, new visual identity).
 - Le table** **2008 - 2010:** Product & Interaction designer (Product & UX / UI design of a touch device for families for a 800 units pre-serie and a large scale user test, **iPhone** and **iPad** apps).
 - Keanu** **2009:** Interaction designer (Design and prototyping of a **gesture interface** using Kinect camera type of sensors and Softkinetics middleware.
The interface was presented as a demo in the **CES 2009**).

► **Orange Labs**

2007 : Junior Designer on prospective products, involving objects, UI, tangible interfaces, lots of mock-ups, tinkering and prototypes.

Education

E.N.S.A.D
